

Introduction

Allergan Medical Fremont joined Allergan, Inc. in March 2006. The first Allergan facility goals are set for 2007 using 2006 as the baseline year. This process continued in 2008 with goals set and compared against 2007. The facility was closed at the end of 2008.

Hazardous Waste Reduction Trend

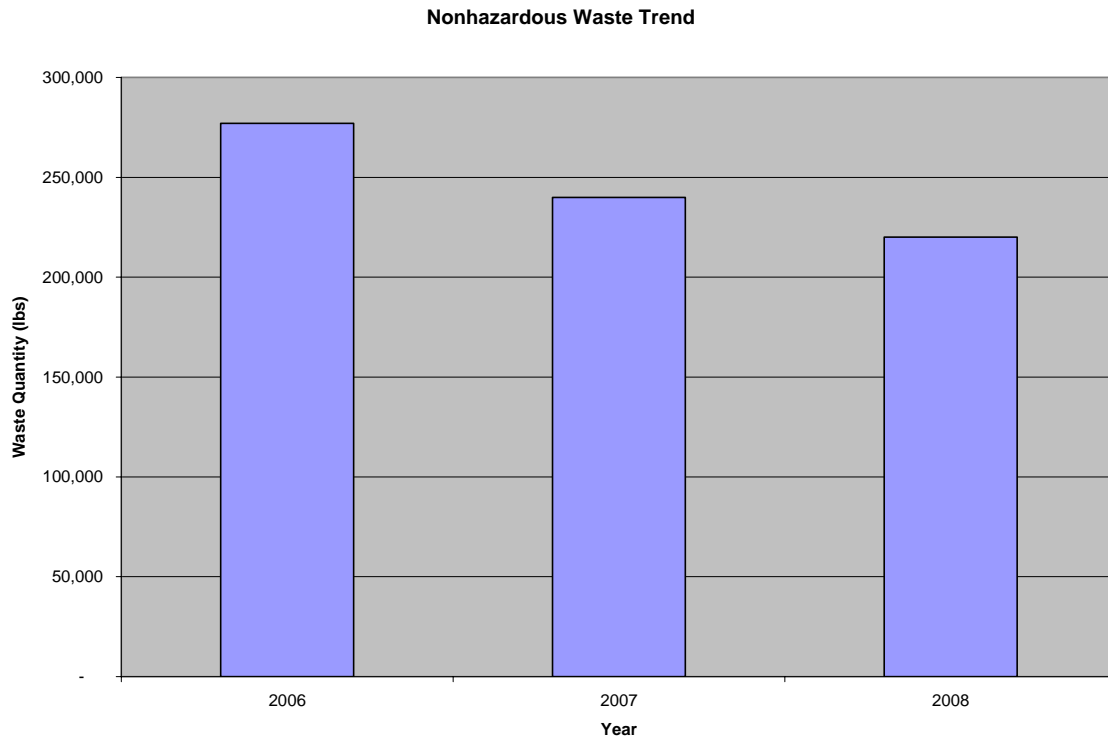

Allergan Medical Fremont hazardous waste generation data is presented below. A downturn in production and closure of the facility have accounted for the increase in hazardous waste generated in 2008. The facility was closed in October 2008 with all hazardous materials and waste removed as part of the closure process.

Hazardous Waste Trend

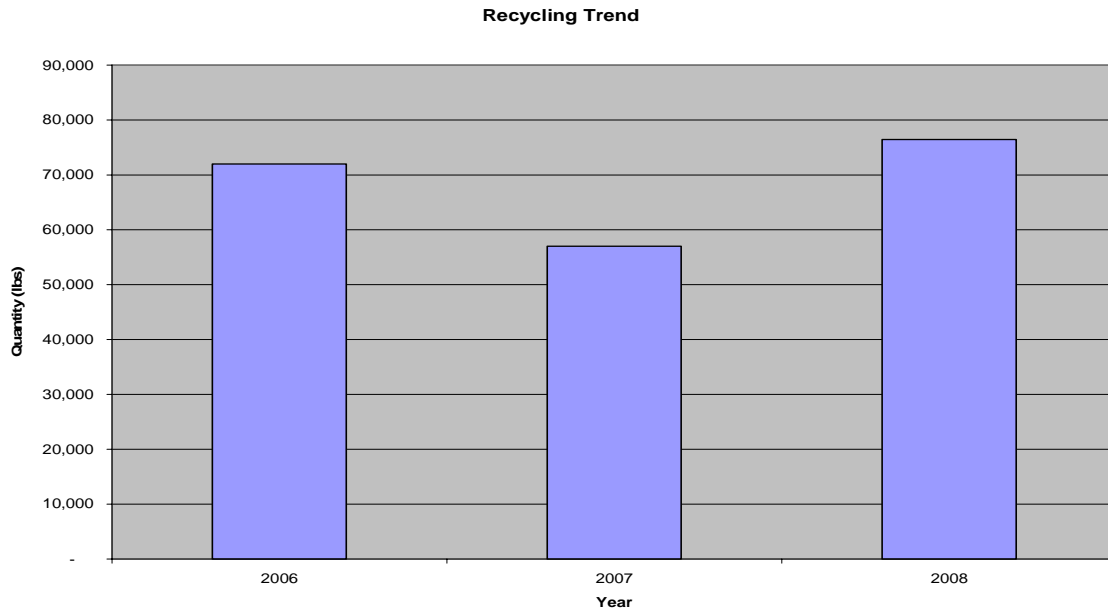

Nonhazardous Waste Reduction Trend
