Dear Allergan Customer:

Following is a list of Allergan products for which Material Safety Data Sheets (MSDS) are **not** required. Hazard determinations as specified at 29 CFR, Part 1910.1200 were performed, and it was concluded that these products are not hazardous as defined, and therefore do **not** require an MSDS. In addition, we believe that all safety concerns regarding our products are described on the package inserts that accompany them.

Please note that Allergan product material safety data sheets are now available on Allergan's website, <http://www.allergan.com>. When needed, you may access the MSDS for each Allergan product, where applicable, on our website.

Sincerely,

Ronald P. Hutton  
Manager, Health & Safety

Product List Not Requiring MSDS	
ACULAR® (Ketorolac Tromethamine Ophthalmic Solution) 0.5%	Gentamicin Sulfate Ophthalmic Solution, 0.3%
